SECTION A - SUPPLEMENTAL INFORMATION

1. The purpose of this Modification is to incorporate new CLINs into the Catalog Contract as a result of Engineering Change Proposal (ECP) L7M4013. The ECP was developed to replace the existing Digital Electronic Control Assembly (DECA) currently being utilized in the various configuration of the Bradley Fighting Vehicle. Due to the continuing parts obsolescence and upgrades within the electronics/microprocessor industry the ECP incorporates new/replacement chips and microprocessors for those that have become obsolete in the original design of the DECA.

2. Incorporation of the ECP affects the DECA, its major subcomponents we procure as spare parts and the OSV Kit which includes a DECA. Based on this the following new CLINs are hereby incorporated into the contract and are reflected on the attached Section B:

Old CLIN	New CLIN	ITEM	NSN	Old P/N	New P/N
0019	0020	OSV Kits	N/A	N/A	N/A
0006	0021	Circuit Card Assembly - A12	5998-01-338-7111	12900554	12900705
0007	0022	Circuit Card Assembly - A13	5998-01-338-7112	12900542	12900702
0008	0023	DECA	1005-01-411-8094	12900569	12900708

3. Based on negotiations, Firm Fixed Prices have been negotiated for the OSV Kits - \$79,515.39 each. This unit price will apply to the FY2001 buy of 85 each which will be awarded as a separate Delivery Order. Negotiations are still in process for the remaining items. When negotiations are completed, the new unit prices will be incorporated under a separate modification.

3. All other terms and conditions of the Catalog Contract remain unchanged.
